Drivers Urged to Move Over or Slow Down for Tow Trucks and Other Emergency Vehicles

If you see tow trucks and other emergency vehicles stopped on the side of the road with their emergency lights activated, do you know what to do?

Texas law requires drivers to slow down at least 20 miles per hour under the posted speed limit or, if able, to change lanes when they're passing a first responder stopped on the roadside.

Large numbers of travelers are expected on Texas roads during the Christmas and New Year's holidays and chances are, they may break down, get involved in crashes or be stopped by law enforcement. Pay attention to what's happening around you and be prepared to react quickly.

Tow truck drivers work hard every day to help people who are stranded on the side of the road. And, like everyone else, they are anxious to return home safely each night. Holiday memories are made when family gathers. Please do your part to make that happen for all.

Safety tips for driving this holiday season:

- Slow down and pay attention to what you're doing. If you get tired, pull over in a safe spot and walk around to re-energize.
- Don't drink and drive, even a little bit.
- Designate a (sober) driver.
- Stay off the phone! Designate a "co-pilot" to oversee the phone while you're driving so you can concentrate on the task at hand.
- Buckle up! All occupants of the vehicle, every trip. Most traffic crashes happen close to home.
- Traveling by motorcycle? Wear a helmet.
- Stay weather-aware. If it's snowy or icy, you'll need to slow down significantly so you don't slide on unexpected icy spots. If it's raining heavily, turn around and don't drown if water is running across the road. Only two feet of rushing water can sweep away a vehicle.
- Leave plenty of time to get to your destination. Roadways are likely to be crowded.
