Brewer Bears Football Preview

With football season set to kick off, the Brewer Bears are looking to get over the proverbial hump this season and capture a playoff spot for the first time in three years.

Coach Jason Wheeler said that his team made some big strides last season and said that progress has continued into 2024.

“Last season we improved in a lot of fundamental areas of the game,” Wheeler said. “This year, through one scrimmage we looked solid as a team. The defense played better as the scrimmage progressed and the offense looked solid from the beginning. We have six starters returning on each side of the ball.”

Brewer finished 3-7 overall last season with a 3-5 mark in district competition, and Wheeler said the biggest difference between this year's and last year's team all boils down to team chemistry.

“This year's team is more unified,” Wheeler said. “There are no major changes in offense or defense.”

The recipe for making a trip to the playoffs is simple for Wheeler, who said his team will need to do two basic things.

“We are gonna need to stay healthy and continue to improve throughout the season,” Wheeler said.

The Bears have a number strong returners this season, who should help put the Bears in the best possible position to capture a playoff berth.

“Charlie Sanders, Jake Hankins and Jarron Montalvo return to anchor the offensive line, and Cameron Carr returns with 13 catches for 2,341 yards and four touch downs,” Wheeler said. “Lucas Cantu returns in the secondary as a starter and made some

big plays last year to help win games. Elijah Mande returns in the secondary as a three-year starter with 47 tackles, three of them for losses and an interception. Landon Perez returns with 27 tackles from last year and David Arrisola and Colton Plenons return as starters on the Defensive Line.”

Look for Aledo and Denton Ryan to be the teams to beat in district 3-5A this season.

Brewer will open the 2024 season at 7 p.m. tomorrow night when they host Saginaw.

White Settlement ISD students & staff will not attend classes on Labor Day, Monday, Sept. 2. Classes will resume at regular times on Tuesday, Sept. 3.

From Protecting Animals of White Settlement

Clear the Shelter Sept. 7

Join us at our Clear the Shelter event on Saturday, Sept. 7 from 11 a.m. to 2 p.m. and discover your new best friend!

The PAWS Protecting Animals of White Settlement shelter is located at 2900 Raymond Ave., White Settlement, TX 76108.

For questions or more information, call 817-246-1043 or email animalcontrol@wstx.us.

From City of White Settlement

Tire Recycle Event Saturday!

Residents may bring tires (no rims) from 9 to 11 a.m. Aug. 31 to the Municipal Complex, located at 8211 White Settlement Rd.

This free service is exclusively for residents, and a recent City of White Settlement utility bill will be required for participation. Participants may drop off up to four tires per vehicle. Semi, trailer, or tractor tires will not be accepted at this event. Space is limited, so it's first come, first served!

For questions or more information, call 817-246-5012.

From White Settlement ISD

Deadline to Apply for Free and Reduced Meals Sept. 27

To be eligible for free or reduced breakfast and lunch, families must [complete an application](#) by Sept. 27.

Applications from last year will be valid through the end of September. The state approved funding to provide free breakfast for students who are also on the reduced meal plan.

Families must apply through their (continued on page 4)

Find a Spot to Fish

Fishing is a fun, affordable way for families and friends to spend time together outdoors.

Try fishing for free (without a fishing license) in state parks, or [buy your fishing license](#) to help support healthy fish populations and their habitats.

State Parks Where You Can Fish for Free

Texas State Parks are proud to host "Free Fishing in State Parks," a year-round program to encourage spending time enjoying one of America's greatest pastimes. Fish without fishing license or stamps in Texas state parks. Just bring your fishing gear and friends to a state park, pay the entry fee, and you're ready to fish!

Parks with Loaner Equipment

If you don't have any fishing gear, don't worry. Many state parks loan fishing equipment for use in the park! [Check the list](#) of parks with loaner equipment, or call the parks directly.

Fishing Regulations

Bag (number of each type of fish) and length limits and other regulations still apply. Ask about these restrictions at the park or see fishing regulations in the [Outdoor Annual](#).

Fishing in Federal Waters

Fishing is under federal jurisdiction beginning at nine nautical miles off the coast of Texas. Texas Parks and Wildlife attempts to maintain regulations consistent with the federal rules, but occasionally there are differences. Either of the two sites listed below

can provide rules and regulations for federal waters, including the latest changes.

Red snapper fishing is regulated by the state within the first nine nautical miles from shore. That season is not closed and regulations for fishing within state waters are found on this site.

However, in federal waters, red snapper fishing is regulated by the National Marine Fisheries Service.

The red snapper season in federal waters varies from year to year but typically opens June 1 with the duration determined annually based on Annual Catch Limits.

If those dates change, the new information will be posted on this site and provided as a news release to papers across the state.

From the U.S. Army Corps of Engineers, Fort Worth District

U.S. Army Corps of Engineers Urges Safety Awareness Ahead of Labor Day Weekend

As the Labor Day weekend approaches, the U.S. Army Corps of Engineers, Fort Worth District, emphasizes the importance of safety during this time of recreation and celebration.

In 1994, USACE established the National Water Safety Program with the purpose of diligently tracking public recreation fatality statistics and trends. Based on the data, resources are allocated to ensure safe and enjoyable experiences at our nation's lakes and reservoirs.

In fiscal 2023, the Fort Worth District saw a remarkable 19.96 million visitors across its lakes and reservoirs which included the use of 53 life jacket loaner stations, 49 swim beaches, 43 marinas, 325 boat ramps, and 6 canoe/kayak launches. Despite these resources, there were significant concerns highlighted by the data where 34 fatalities were recorded:

- 93 percent of water-related fatalities were male, ages 18 and older.
- 90 percent of water-related fatalities occurred without the use of a life jacket.
- 35 percent of fatalities happened in non-designated swimming areas.
- 40.4 percent of fatalities occurred while swimming, and 44.7 percent while boating.

As we celebrate Labor Day and honor the contributions of American workers and the social and economic progress they drive, the Fort Worth District encourages everyone to celebrate responsibly while prioritizing safety. Our dedication to safety remains unwavering, and it is crucial to remember the heightened risks associated with summer activities. We urge everyone to follow these essential tips for a safe and enjoyable holiday weekend:

1. **Travel Safely:** Be well-rested before embarking on a road trip. Plan for frequent breaks, share driving duties if possible, and have your vehicle checked by a mechanic. Pack an emergency kit with a flashlight, jumper cables, tool kit, tire gauge, and flares. Make sure everyone wears seat belts, obey speed limits, and avoid distractions like texting while driving. Plan your route ahead of time. Remember, alcohol and driving do not mix.

2. **Boating Safety:** Before hitting the water, perform a safety check of your vessel, including life jackets, throwable devices, fire extinguishers, visual distress signals, sound-producing devices, and when ap-

plicable, wear a kill switch. Remember to have a first aid kit easily accessible. Avoid restricted areas, know the water rules, and inform someone on land of your plans. Remember, alcohol and boating do not mix.

3. **Stay Hydrated and Protected:** Drink plenty of water, especially in the heat, and provide bottled water for guests at gatherings. Use sunscreen with appropriate SPF and reapply as necessary. Avoid too much caffeine or alcohol, which can cause dehydration.

4. **Outdoor Chores:** If engaging in outdoor activities or chores, inspect power tools and cords for any damage. Ensure tools are suitable for outdoor use.

5. **Swimming Safety:** Always use the buddy system when swimming and avoid alcohol consumption. Wearing a properly fitted life jacket significantly reduces the risk of drowning.

While these tips are not all-inclusive, they will drastically minimize accidents in and around our lakes and reservoirs and prevent you from becoming a statistic. Enjoy this end-of-summer holiday, have a memorable and accident-free Labor Day weekend.

2024 Air Force Plant 4 Community Involvement Plan Questionnaire

Air Force Plant 4 (AFP4) believes the active, meaningful involvement of community members is critical to the success of the environmental restoration program. The Air Force invites you to participate in our community questionnaire on the restoration and monitoring program at AFP4. This questionnaire is an opportunity for you to tell us how well we are doing at listening to your concerns about ongoing environmental restoration and cleanup efforts at the installation.

Please take a few moments to answer the questions as your views are crucial to the program and will help us to be more responsible to the community's needs and interests.

Responses will be used to update the Community Involvement Plan and participant names will not be attributed.

If you wish to speak directly with an agency official, contact one of the following:

- Air Force: Bradley Bashore 937-938-4779, bradley.bashore.l@us.af.mil
- Environmental Protection Agency (EPA): Brian Follin, follin.brian@epa.gov
- Texas Commission on Environmental Quality (TCEQ): Midori Campbell, midori.campbell@tcer.texas.gov

The [questionnaire](#) can be accessed and submitted electronically online.

Community members are invited to attend the Community Involvement Restoration Advisory Board Meeting on Sept. 18 at 6 p.m. in the Community Room at Westworth Village City Hall, located at 311 Burton Hill Rd. Westworth Village, TX 76114.

From Texas Department of Licensing & Regulation

Keep An Eye Out For Abandoned Or Deteriorated Water Wells

Texas hunters headed out for dove season are asked to watch for abandoned or deteriorated water wells, and to report any they find to the Texas Department of Licensing and Regulation.

There are thousands of abandoned or deteriorated water wells in Texas, so chances are that hunters could spot these potential safety hazards that also contribute to groundwater pollution. Abandoned or deteriorated water wells can contaminate groundwater by providing a direct conduit for chemicals and other surface contaminants, such as animal waste and pesticides, to directly enter aquifers. Uncapped wells also present a physical danger to humans and animals who can be severely injured or killed when they fall partially or completely into the well.

What does an abandoned or deteriorated water well look like? There could be a plastic, steel, brick or concrete casing (pipe) that extends above ground, or there could be a hole in the ground with no apparent bottom. Some abandoned wells have concrete or brick casing extending above ground or a windmill with missing blades. Abandoned or deteriorated well casings or pipes may be cut off at ground level, posing an additional threat.

- Wells are “abandoned” when they are not in use, as defined by Texas Occupations Code, Section 1901.255.
- A “deteriorated” well is a well that is causing or likely to cause pollution of any water in the state, including groundwater.

If you’re aware of abandoned or deteriorated wells, report them to TDLR: <https://www.tdlr.texas.gov/abwells/default.aspx>. When filing the report, please include an address or GPS Coordinates and any photos or video of the well, if possible.

To avoid problems related to a water well that’s no longer in use, landowners should install a locking well cap or sanitary well seal – not just a cover over the well – to prevent unauthorized use or entry into the well. The well cap should not be easily removable by hand and should be capable of withstanding 400 pounds of weight. Septic systems should be pumped and inspected as often as recommended by the local health department. Care should be taken when mowing or working near the well.

Landowners are responsible for abandoned or deteriorated

water wells on their property, and once they’re aware of an abandoned well on their property, they must plug it within 180 days. Landowners can plug the well themselves (in compliance with Title 16, Texas Administrative Code, Section 76.104: Capping and Plugging Wells Standards) or hire a well driller or pump installer licensed by TDLR to plug the well or bring the well into compliance.

If a landowner chooses to plug the well themselves, they are required to plug the well in accordance with [TDLR’s well plugging specifications](#) and submit a State of Texas Plugging Report to TDLR within 30 days from the date the well was plugged.

About TDLR

TDLR provides regulatory oversight for a broad range of occupations, businesses, facilities, and equipment in Texas. The agency protects the health and safety of Texans by ensuring they are served by qualified, licensed professionals. Inspections of individuals, businesses, and equipment are done on a regular basis to safeguard the public.

Visit TDLR’s website for more information and resources. You can search the TDLR licensee database, and also find past violations in which a final order was issued against companies or individuals. TDLR’s Customer Service line is available anytime between 8 a.m. until 5 p.m., Monday through Friday, at 1-800-803-9202.

Home of the World Famous Cinnamon Rolls!

The 40th Governor of Texas, Preston Smith

While Texas has many outspoken figures in its history, there were also the quiet workers who made an impact. One such man was two-term governor Preston Smith.

Smith was born into a family of sharecroppers in 1912 in rural Williamson County. Like many farm families of the time, it was a large household, with thirteen brothers and sisters in all. Eventually, the Smiths settled

near the West Texas community of Lamesa, where Smith graduated high school in 1928.

After graduation, Smith moved to Lubbock where he enrolled at Texas Tech, working his way through college. He graduated with a business degree and began a small chain of movie theaters in the city by the 1940s. In 1944, he was elected to the state house of representatives, the first of three terms.

Smith took a few years off from politics to tend to his business interests in Lubbock and take care of his growing family. In 1956, he returned to politics with a victory in the election for state senate. In 1962, he was elected lieutenant governor by a wide margin.

When President John F. Kennedy was assassinated in Dallas on Nov. 22, 1963, Gov. John Connally was also seriously wounded in the attack. His critical injuries forced Smith to assume the role of acting governor in the months it took Connally to recover. Smith was praised for his steadiness in the face of the tragedy.

In 1968, Connally declined to seek a fourth term as governor, leaving an opening for Smith. He jumped into a wide field for the Democratic Primary in 1968. In one appeal to voters, he

sent out letters to the 47,000 families named Smith in the state, asking, "Don't you think it's about time one of us was governor?" Smith ended up winning the primary and swept to a win in the general election with 57 percent of the vote.

Smith was the first governor from West Texas. He secured some improvements for education, such as a plan to phase in a raise for teachers over a ten year period as well as increased funding for vocational schools. He won approval of a state minimum wage law and helped secure new medical schools in Houston and Lubbock.

Smith was described as an affable and grandfatherly figure which won him a lot of admirers for his straightforward and open approach to governing. However, his public relations efforts were sometimes clumsy, leading detractors to call him "Pop," for "Poor Old Preston."

After his second term began in 1971, the state government was embroiled in what became known as the Sharpstown Scandal. A Houston businessman named Frank Sharp had tried to push through favorable anti-regulatory legislation for his bank and insurance company, giving certain legislators stock in his companies. House Speaker Gus Mutscher, who had engineered the legislation, ended up being indicted and convicted in the scandal though that conviction was later overturned.

Though Smith was never implicated in any wrongdoing, the scandal undermined faith in his administration. He ran for a third term in 1972 as calls for reform rose. He was humiliated with a fourth-place finish in the primary, far behind South Texas businessman and rancher Dolph Briscoe.

He attempted a political comeback in 1978, running for governor again, but he placed third in the primary. He remained active in Lubbock and worked as a lobbyist for Texas Tech for many years. He served as chairman of the state College and University Coordinating Board in the early 1980s.

His health declined following a car accident in 2003. He died in October of that year at the age of 91. He was widely praised by both Democrats and Republicans for his years of dedicated service to the state.

The next year, his hometown of Lubbock honored his memory by renaming the airport after him.

From the Project Linus Blanketeers

First Monday Quilt Club - Project Linus Volunteers Needed

Come join the fun and fellowship with the Quilt Club volunteers while you make a difference by crafting quilts for Project Linus.

The First Monday Quilt Club meets on the first Monday of each month at Bethany Christian Church, located at 1500 Meadow Park Drive in White Settlement from 10 a.m. to 1 p.m. Instead of a potluck lunch, ladies are asked to bring brunch or snack items. Their next meeting is on Monday, Sept. 2.

Project Linus is a non-profit service organization, and the members of this group are Tarrant County Chapter Project Linus volunteers who create handmade quilts and blankets that provide love, warmth, and comfort for local children who have suffered trauma, tragedy, or illness.

Volunteers also make coverlets for veterans, nursing home residents, and the homeless. Unfortunately, the need for these blankets increases

each month. They desperately need volunteers with portable sewing machines to help assemble the quilts.

No experience is needed - there is a place for you. Anyone can help if you can follow instructions, sew, tie a knot, crochet a blanket, or tell a good joke. Volunteers have lots of fun and develop fantastic friendships.

High school students can receive community service credits for participating.

Materials (fabric, batting, thread, and yarn) are provided. Donations of fabric, yarn, thread, sewing machines, sergers, or money to purchase materials are greatly appreciated.

For more information about the mission of Project Linus, visit www.projectlinus.org.

For more information about the First Monday Quilt Club, call Virginia Biela at 817-244-1263.

From Tarrant County Fire Marshal

Tarrant County Issues Ban on Outdoor Burning

The Tarrant County Commissioners Court approved an outdoor burning ban on Tuesday, Aug. 20, for unincorporated Tarrant County. With this Order, there will be no outdoor burning without the approval of the

Tarrant County Fire Marshal's Office for the next 90 days, excluding cooking, welding and the use of fire pits for social gatherings.

The severe drought conditions in unincorporated areas of Tarrant County have prompted the Tarrant County Fire Marshal to request the ban on outdoor burning to protect lives and properties of Tarrant County residents. The Texas A&M Forest Service supports the request for an outdoor burning ban.

For information on [outdoor cooking](#), the use of firepits and [outdoor welding](#) guidelines, go to www.tarrantcountytx.gov/burnban.

A violation of the Court Order prohibiting outdoor burning is a Class C Misdemeanor with a fine up to \$500.

Burn Ban

When Tarrant County is under imminent threat of severe damage, injury, or loss of life or property resulting from the threat of wildfires due to drought conditions, the Tarrant County Commissioners Court will approve a ban on outdoor burning for a period of 90 days.

During this time no open flames, sparks or embers are allowed. For our residents in the rural areas, we strongly suggest that you make sure you keep an area of approximately 30 feet mowed around your home and out buildings to prevent a fire from reaching your structures.

If sufficient amounts of rainfall occur during a burn ban, the Tarrant County Fire Marshal may request a repeal of the burn ban.

If burning is allowed, the [Texas Commission on Environmental Quality, Chapter 111, Subchapter B](#), governs outdoor burning in the State of Texas. The Tarrant County Fire Marshal's Office reminds you that if you conduct an outside burn, you must observe the following requirements:

- Burn only in the unincorporated areas of Tarrant County.
- Contact the Tarrant County Regional Communications at 817-232-9800 on the day you plan to burn to register your address and to confirm it is an allowable burn day. The Tarrant County Regional Communications is open 24/7.
- The party responsible for the burn must be present at all times and remains liable for damages.
- Begin burning no earlier than one hour after sunrise, and end the same day no later than one hour before sunset – no burning at night.
- Make sure the smoke does not blow towards a neighbor's house or onto a road.
- The burn must be downwind and at least 300 feet from structures on adjacent properties.
- Only burn brush, tree limbs, grass clippings, leaves or household trash. The material must be generated from the property. No

hauling in or burning of construction materials, heavy oils or chemical wastes.

- No burning if wind speeds (either constant or gusts) are greater than 23 mph.
- To conduct prescribed burns, you must contact the Tarrant County Fire Marshal's Office for approval.

Report Illegal Burns

To report someone illegally burning outdoors, call the Tarrant County Regional Communications at 817-232-9800 or the Tarrant County Sheriff's Office at 817-884-1315.

The authority to conduct outdoor burning under this regulation does not exempt or excuse any person responsible from the consequences, damages or injuries resulting from the burning and does not exempt or excuse anyone from complying with all other applicable laws or ordinances, regulations and orders of governmental entities having jurisdiction -- even though the burning is otherwise conducted in compliance with this regulation.

From Tarrant County Community Development and Housing

Home Owner Rehabilitation Program

The home owner rehabilitation program offers a housing rehabilitation program to Tarrant County residents living outside the boundaries of the cities of Fort Worth, Arlington and Grand Prairie.

Rehabilitation includes major system failures, which includes roof, foundation, electrical and plumbing.

For more information, see brochure for [Home Owner Repair Program](#) and [ADA Barrier Removal Program](#).

General contractors are needed! If you want to work as one of the contractors for this program, contact Program Manager Brad Hearne at 817-850-7961 or email BLHearne@tarrantcountytx.gov.

Emergency Solutions Grant Program

The [Emergency Solutions Grant \(ESG\)](#) program provides homeless persons with basic shelter and essential supportive services. Tarrant County assists with the operational costs of the homeless shelter facilities and provides short-term homeless prevention assistance to income-qualified persons at imminent risk of losing their own housing due to eviction.

Tarrant County Homeless Coalition Homeless Hotline: 817-996-8800

If you live outside of Fort Worth, Arlington or Grand Prairie, have low income, have a notice to vacate or eviction letter and need rental assistance, apply for assistance using the [Prevention Screening Form](#).
