From the Sports Desk with John Loven

Lions Drop Home Opener

It has been a rough start for the Castleberry Lions football season. Their first game of the season was a road game to Mineral Wells on Aug. 26. The game was close at halftime as the Lions trailed only 14-6. But the second half got completely out of control and CHS eventually lost 53-13. The Lions returned to the friendly confines of W.O. Barnes Stadium on Friday, Sept. 2 for their next contest. A large crowd turned out on Military Appreciation Night as the Lions took on the Peaster Greyhounds (who had lost their first game 29-12 to Tolar). This game had few things for Lion fans to cheer about and saw CHS fall to Peaster 44-0.

The Lions kicked off to start the game. Peaster methodically marched down the field. The 12-play drive, which gained 4 first downs, drove 76 yards for a score. The final play was a touchdown pass on a fourth-and-two from the Lions 14-yard line. The point after touchdown was good and the Greyhounds led 7-0 with 8:14 left in the opening quarter.

On Castleberry's first possession they were not able to move the ball, despite a 15-yard facemask penalty against Peaster on 1st down. Four plays later the Lions punted from their own 30-yard line. Unfortunately, the punt only traveled 10 yards and set Peaster up with great field position on the Lions 40-yard line. The

Greyhounds gained 18 yards on their first two plays. The Lions benefited from a bad Peaster snap which sailed passed their quarterback and resulted in an 18-yard loss. The Greyhounds could not convert a fourth-and-nine and the Lions got the ball back on downs.

Castleberry again could not move the ball. On fourth-and-15 from their own 22-yard line they punted but again got off a poor punt. The 16-yard punt set Peaster up again with great field position on the CHS 38 yard line. The Greyhounds moved down to the 13 yard line when CHS junior defender Riley Bentley (#11) made a big play as he sacked the Peaster quarterback for a 9-yard loss. This helped to force Peaster into a punt when they eventually faced a fourth-and-38 (aided by a 15-yard, dead ball penalty against the Greyhound quarterback). The Lions however muffed the punt return and the ball was recovered by Peaster on the Lions 3-yard line. The Greyhounds scored on the next play to take a 14-0 lead near the end of the first quarter (36.7/1st).

As the second quarter began the Lions mustered a decent drive out to midfield. A big play in this drive was a reception by sophomore Demonte Washington (#25) on third-and-9 which resulted in a 13-yard gain and a first down. However, the Lions were eventually (continued on page 3)

Hello Fellow District 99 Residents,

My name is Mimi Coffey and I am running to be your State Representative. I have spent most of my entire life in District 99. I have raised my 4 children here. As a defense attorney of 27 years, I am used to fighting uphill battles and negotiating. I will fight hard for the needs of our northwest Tarrant County residents.

Our property taxes are too high. Women's reproductive rights have been taken away. Our public schools are in a crisis with a shortage of teachers. It is getting harder for the majority of northwest Texans to make ends meet with rising costs. As a small business owner of 22 years, I know what it takes to run a successful business and take care of your people. The pandemic has taught us that to survive we must embrace change. I am ready to serve both Democrats and Republicans alike. District 99 is military and defense industry heavy. I understand and respect this as my father served in the Army and retired from Lockheed-Martin (General Dynamics). I have the utmost respect for our incumbent representative and if elected, plan to continue his tradition of excellent service to the community.

I invite you to visit my website, mimicoffeyfordistrict99.com for more information. I'm asking for your vote so that we can put PEOPLE OVER POLITICS. Feel free to text or call me direct at 817-205-4861.

TRWD Trash Bash to Return Sept. 17

For the past 30 years, TRWD has committed to engaging with the communities that surround its waterways to promote community organized cleanups.

Over the years, thousands of community members have removed over 500 tons of garbage with one mission in mind, protecting the natural resources that surround them.

This year is no different. We are asking you to embark on this mission of protecting the waterways surrounding your community again starting Sept. 10 at Lake Bridgeport, Sept. 17 at Eagle Mountain Lake and the Trinity River in Fort Worth, and Sept. 24 at Cedar Creek Lake.

We have exciting news this year - the return of the coveted after party! Follow @TRWDTrashBash on Facebook and Instagram to learn more and stay tuned for more exciting news.

CHS Football (continued from page 1)

stopped on fourth-and-three when they were tackled for a 5-yard loss. Peaster then took over on downs. They scored eight plays later on a 4-yard pass play. The point after touchdown made the score 21-0 with 5:48 left until half.

The offense failed to move the ball at all in their next two possessions and punted both times. The Lion defense had their two best stands during this stretch. First, they forced Peaster to turn the ball over on downs on an incomplete pass on fourth-and-8 from the CHS 18-yard line. On the Greyhounds next possession, they forced a turnover when sophomore Cayden Perez (#6) intercepted the Peaster quarterback's pass.

On the last possession of the first half the Lions did move the ball well. They managed three first downs and gained 42 yards in the process. However, they also lost starting quarterback Demetrius Valadez (#7) to an injury. Backup quarterback Cayden Perez now filled in for the rest of the game. Time ran out with the Lions on the Greyhounds 39-yard line. Halftime score saw the Lions behind 21-0.

The second half began with the Lions going three-and-out. A long punt return by Peaster set the Greyhounds up on the Lions 16-yard line. They scored three plays later to extend their lead to 28-0. CHS turned the ball over for the second time on the night, a fumble, on their next possession. This time it set Peaster up on the Lions 22-yard line. The Lion defense forced a field goal attempt on a fourth-and-13 which the Greyhounds missed. However, the Lions were offside which gave Peaster another chance. After an offensive interference penalty against the Greyhounds they faced a fourth-and-23. The Peaster quarterback was then sacked by junior linebacker JR Ramirez (#21) to force the ball over on downs.

Both teams punted on their next two possessions. A nice defensive play for CHS on this possession was another sack of Peaster's quarterback. This time it was junior linebacker Ismael Cecenas (#45) on a third-and-11 and forced a punt. These possessions were then followed up by Castleberry's third turnover of the night – this time an interception. The third quarter ended with CHS trailing 28-0.

The fourth quarter began with Peaster scoring another touchdown. This pushed the lead to 35-0 at the 10:26 mark. The Lions offense afterwards was stopped again and were forced to punt from deep in their own end of the field. Unfortunately, the snap was mishandled by the punter and resulted in the Lions fourth turnover of the night. Peaster took over on the 12-yard line and scored two plays later (8:05/4th) to lead 42-0. The scoring ended on a safety when the Lions quarterback was tackled in the end-zone with 1:38 left in the game. Final score was 44-0.

The Lions hit the road this Friday, Sept. 9 when they travel to Bridgeport and face the Bulls. Kickoff is set for 7:30 p.m.

Southern Methodist University *by Dr. Ken Bridges*

Students begin a new school year with hopes and dreams of better lives. Teachers and administrators similarly have high hopes for their students, trying to create classrooms and schools of the highest quality where these dreams can be nurtured and minds developed, as difficult as this sometimes is given the limits of budgets. Southern Methodist University in Dallas was created with such hopes but also with many obstacles. In the end, SMU was the result of a fight to relocate another college and the fate of a Dallas medical school that culminated in a world-class university.

Southwestern University in Georgetown, just north of Austin, had been founded by the Methodist Church in 1840. As Texas grew, Methodist leaders at the turn of the century questioned if Georgetown was the best location. To many in North Texas, it only seemed reasonable that the college be relocated to Dallas or Fort Worth, given their large population of Methodists and growing business communities.

While some communities were hesitant to embrace colleges and universities in their communities, worried about rowdy students or radical ideas, Dallas leaders saw an opportunity. They quickly realized that a top-rate university would become an important economic engine for the city, attracting students from far and wide and producing the skilled thinkers that businesses increasingly needed to operate.

Southwestern University ultimately stayed in Georgetown, but Dallas was able to secure the new university, in part from help from Southwestern. In 1903, Southwestern had opened a medical school and school of pharmacy in downtown Dallas. The school was small and a drain on resources. Through the efforts of the school's dean, Dr. John McReynolds, Southwestern handed ownership over to the new university to be established in Dallas.

SMU's charter was signed in April 1911. Dr. Robert S. Hyer was hired by trustees to serve as the first president. The medical and pharmacy schools were the only programs offered. Students paid tuition of \$100 per year while SMU trustees poured in \$25,000 trying to update the school's facilities. While it was a modest success, the costs made it difficult to expand into a full university.

Hiram Boaz was hired as vice-president and fundraiser in 1913. Boaz, a Methodist minister and later a bishop in the church, had many connections needed to be able to secure the donations the university needed. Hyer meanwhile hired 37 professors and started an aggressive recruitment campaign. Dozens of acres

were secured in North Dallas and tens of thousands of dollars were spent on the ornate Dallas Hall, the first permanent building on the new site.

In the summer of 1915, SMU was faced with a difficult choice. The university had the money to either operate the medical school or the new university. Trustees made the decision to suspend the medical school in favor of the new campus. By the fall of 1915, SMU opened in North Dallas. Some 456 students enrolled in the college's first classes. Women were also admitted as students in a time when many colleges still refused to admit women. A basic program of the liberal arts and sciences were offered as well as graduate programs and a school of divinity. Two buildings were included on the campus, which included a fully-functioning library, with Hyer and trustees planning even more construction as time progressed.

A campus community quickly coalesced at the new location. The Daily Campus, the student newspaper, began publication that fall. At the university's first graduation ceremony in June 1916, twenty-four bachelors degrees and seven masters degrees were granted. The first years were clearly a success. Anxious to expand the offerings of the university and acquire the talent needed to help manage the rapidly growing businesses in Dallas, the local business community pushed SMU to open a business school, which opened in 1920.

Hyer retired in 1920 but stayed with the university as a physics professor until his death in 1929. Boaz stepped into the position of president, for two years. Dr. Charles Selecman then became the university's third president in 1923. The Methodist minister oversaw a massive building project and expansion of the university as it steadily matured.

Under Selecman's tenure, SMU added nine more building to its campus. The SMU School of Law was opened in 1925. The university expanded even further with the opening of the engineering school that year. In 1927, the ornate Highland Park Methodist Church was completed on campus. While the university and the nation struggled through the Great Depression in the 1930s, Selecman was able to keep enrollment and funding strong.

The college continued to grow, weathering war, controversy, and celebrating successes along the way. It grew over the intervening years to become one of the most respected universities in Texas. SMU today boasts more than 11,000 students pursuing dozens of majors.

Virtual Public Meeting with In-Person Option North Las Vegas Trail Project From Quebec Drive to I-820 CSJ: 0902-90-176 Tarrant County, Texas

The Texas Department of Transportation (TxDOT) and the cities of Fort Worth and White Settlement are proposing improvements to North Las Vegas Trail from Quebec Drive to I-820 in Tarrant County, Texas. This notice advises the public that TxDOT will be conducting a public meeting on the proposed project. The meeting will take place on September 29, 2022, from 5:00 to 8:00 p.m. at the Pecan Grove Convention Center at 405 North Las Vegas Trail, White Settlement, TX 76108.

The meeting will consist of a virtual meeting with an in-person open house option including a prerecorded presentation and opportunities to view schematics, ask questions and explore the project design as well as a virtual option at www.txdot.gov. Project maps and materials will also be available online via www.txdot.gov (keyword search "North Las Vegas Trail") and in-person at the Texas Department of Transportation Fort Worth District Office located at 2501 SW Loop 820, Fort Worth, TX 76133. The prerecorded presentation will be available for viewing at the web address indicated above or by contacting the district office at the number provided until at least Thursday, October 14, 2022, at 5:00 p.m. If you do not have internet access, you may call (817) 370-3523 between the hours of 8:00 a.m. and 5:00 p.m. Monday through Friday, to ask questions and access project materials during the project development process. Formal comments may be provided by mail or email as explained below.

The project proposes to widen the roadway from two lanes to four lanes, add turn lanes, construct shared use paths, and improve the intersections at Heron Drive and Shore View Drive. Additionally, the project proposes drainage improvements at the unnamed tributary to Lake Worth to eliminate the low water crossing on Las Vegas Trail. This project is currently funded with local funds for planning and study development only. Funding for construction has not been allocated at this time. This project is proposing to acquire approximately 0.234 acres of right-of-way and 0.859 acres of permanent easements.

The proposed project has the potential to impact John Griggs Park, managed by the City of White Settlement. This property is managed as a public park and recreation facility and is protected under Section 4(f) of the Department of Transportation Act of 1966. TxDOT will pursue a de minimis finding for any potential impacts at the park. Although additional right-of-way would be required, no residential or non-residential structures are anticipated to be displaced at this time. Portions of the proposed project area are located within the Federal Emergency Management Agency (FEMA) 100-year floodplain, which is defined as the zone with a one percent chance of a flood event occurring in any given year. The hydraulic design for the proposed improvements would be in accordance with current TxDOT and Federal Highway Administration design policies and procedures. The project would not increase the base flood elevation without coordination and approval from the appropriate

FEMA Floodplain Administrator. Approximately 0.21 acres of potential jurisdictional waters of the U.S. were identified within the project limits. Anticipated impacts would be authorized under U.S. Army Corps of Engineers (USACE) Nationwide Permit 14.

Although additional right-of-way is anticipated to be required, no residential or non-residential structures are anticipated to be displaced at this time. Information concerning services and benefits available to affected property owners and information about the tentative schedule for right-of-way acquisition and construction can be obtained from the City of Fort Worth, Property Management by calling (817) 329- 8379.

Maps and drawings showing the project location and design, tentative construction schedules and other information regarding the proposed project are on file and available for inspection Monday through Friday between the hours of 8:00 a.m. and 5:00 p.m. at the Texas Department of Transportation Fort Worth District Office located at 2501 SW Loop 820, Fort Worth, TX 76133. Project materials are also available online at www.txdot.gov keyword search "North Las Vegas Trail Project".

The virtual public meeting and the in-person option will be conducted in English. If you need an interpreter or document translator because English is not your primary language or have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or if you are a person with a disability who requires accommodation to attend and participate in the public meeting, please contact Jennifer Carpenter at (817) 370-3523 no later than 4:00 p.m., September 16, 2022. Please be aware that advance notice is required as some services and accommodations may require time for the Texas Department of Transportation to arrange.

Written comments from the public regarding the proposed project are requested and may be submitted by mail to the TxDOT Fort Worth District Office, 2501 SW Loop 820, Fort Worth, TX 76133. Written comments may also be submitted by email to jennifer.carpenter@txdot.gov. All comments must be received on or before October 14, 2022. Responses to comments received will be available online at www.txdot.gov keyword search "North Las Vegas Trail Project" once they have been prepared.

If you have any general questions or concerns regarding the proposed project or virtual meeting with an in-person option, please contact Jennifer Carpenter at (817) 370-3523.

The environmental review, consultation and other actions required by applicable federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.
